

EBMUD 2026-05-22-v01 QC Report

Input Inventory

- Source file: `data-raw/ebmud/2026-05-22_v01-2/2026-05-22_v01-2.gpkg`
- Source layer: `LMR_HRL_Projects_Act_FINAL_1`
- Feature count: 6
- Geometry type: 3D Measured Multi Polygon
- CRS: WGS 84
- Field count: 30

Output

- Target profile: `RestorationProjectSubmission`
- Output file: `data-standardized/ebmud/2026-05-22-v01.gpkg`
- Output layer: `restoration_projects`
- Output feature count: 6
- Output CRS: `EPSG:3310`
- Program/system fields omitted from output: `update_date`
- Source helper fields omitted from output: `Name`, `Site_Name`, `geometry`, `Shape`

Transformations

- `project_stage`: mapped submitted labels to schema enum values.
 - `Design & Permitting` → `design`; `permitting`
 - `Complete` → `post-construction monitoring and science`
 - `On-going` → `construction`
- `project_type`: mapped submitted labels to schema enum values.
 - `Floodplain Habitat Restoration` → `tributary floodplain habitat`
 - `Gravel Maintenance` → `spawning habitat`
 - `In Channel Rearing Habitat Restoration` → `rearing habitat`
- `system`: mapped submitted river-system labels to schema enum values.
 - `Mokelumne River` → `Mokelumne`
- `estimated_budget` and `funding_gap`: removed currency symbols and grouping separators, then wrote integer dollar values.
- `funding_secured`: converted submitted yes/no values to dollar values.
 - `No` → `0`
 - `Yes` → `estimated_budget - funding_gap`
- `funding_sources`: converted known combined-source strings to semicolon-delimited values and wrote `None` as missing.
 - `DWR FAIR Funding Agreement & EBMUD Capital` → `DWR FAIR Funding Agreement; EBMUD Capital`
 - `Prop 68 & EBMUD Capital` → `Prop 68; EBMUD Capital`
 - `EBMUD, USFWS, CNRA` → `EBMUD; USFWS; CNRA`
 - `None` → `missing`
- `early_implementation`: converted submitted integers to logical values.

- 0 → FALSE
- 1 → TRUE
- Text length limits from the pinned schema were enforced for description and comment fields.
- Geometry was transformed from WGS84 to EPSG:3310 and Z/M ordinates were dropped.

Validation Summary

- Errors: 0
- Warnings: 18
- Informational notes: 3

Remaining Review Items

- Confirm whether mapping `On-going` gravel maintenance to `construction` is the intended HRL project-stage representation.

Validation Details

See [reports/ebmud/2026-05-22-v01_validation.csv](#) for row-level validation details.
